Faculty: Ryan, Dan

Question: What has the instructor done especially well in the teaching of the course?

Response Rate: 83.33% (5 of 6)

1 Excellent integration of technology into the social science. His passion for and interest in the material was obvious. He was very understanding and supportive of me as a student and helped us to understand difficult material.

2 I really appreciated that you allowed us to personalize our final project, and that you were able to give us real-life examples of the way Social Networking Analysis is used. Your passion for the subject is notable and the fact that you cared about the individual student's progress made going through this pilot class bearable.

3 Your interest in the subject matter was great. You did a great job in breaking things down into laymen terms.

4 Very exciting course and course material. Teaching students to use a variety of tools and the general way of thinking about social and other networks (i.e. meta view) rather than a focus simply on the tools. Teaching the tools was very helpful as well; I appreciated the meta-thinking.

I also appreciate the communications about different things in the different social media (blogs, tweets, emails, etc).

enthusiasm

5 open-minded, open approach
